

cooltech<sup>®</sup>

CLINICAL RESULTS

## ADIPOLYSIS ASSISTED BY FAT FREEZING

The applicator draws out the tissue into the handle by creating a vacuum effect that temporarily reduces blood flow and facilitates the application of Cryo-adipocytolysis. After this treatment the natural process of fat elimination occurs, reducing unwanted fat via the lymphatic system.

### CLINICAL BENEFITS:

- > Non-invasive and pain-free.
- > Visible results after 15 days and optimal after 12 weeks of one **CoolTech®** procedure.
- > The procedure allows the patients to immediately resume their lives.

### WE RECOMMEND:

- > Sessions of no less than 70 minutes.
- > 1-3 sessions in the same area every 6-8 weeks.

### STUDIES CONDUCTED BY:

- > Dr. José Ramón Vázquez Casas.  
Doctor of medicine and surgery. Specialist in Intensive Care Medicine.
- > Dr. Xavier Sánchez Tarrago.  
Graduate in medical aesthetics and aging medicine..
- > Dr. Carlos Fajardo Urdiales.  
Graduate in medicine and surgery at the Universidad of Málaga.
- > Dr. Ravi Jain.  
Qualified in medicine from the Royal London Hospital and has held posts at The Royal London, St. Bartholomew's and St. Mary's Hospitals.
- > Dr. Mariano Vélez González.  
Graduate in medicine and surgery. Graduate in biology and pharmacy.
